Centrair to launch a new incentive program to lower international freighter landing charges

Central Japan International Airport Co., Ltd. has launched a new incentive program to lower landing charges for international freighter services operating in Centrair. This program is in line with the “Fly Centrair Cargo Campaign” led by Central Japan International Airport Promotion Council. Through our partnership with the Council, we will continue to take innovative approaches to better meet the diversified needs of our partner airlines.

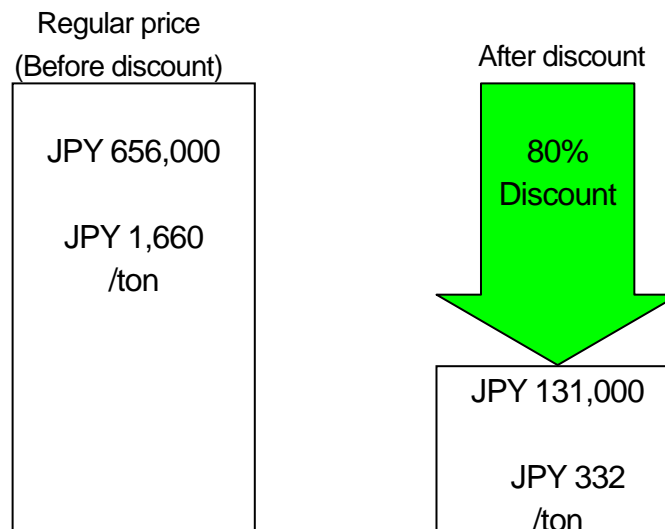

Program:

Financial incentive worth 80% international freighter landing charges to be provided for 1 year. Applicable to the amount of the volume in Maximum Takeoff Weight increased from the previous year.

*Applicable period: 1 year between April 21, 2011 and April 20, 2013

Example:

Landing fee to be charged to B747-400 (395 tons)
